Introduction

The International Scientific Conference Wood & Fire Safety 2024 is a traditional meet-up con of fire protection experts and specialist who prefer wood and wood-based materials.

This is already the 10th session held at the traditional spot in Patria Hotel, Štrbské Pleso in the High Tatras, Slovakia following traditional four-year frequency intervals with a traditional abundant program. This tradition was established 30 years ago in 1988.

Since the first conference up until now, more than 600 participants took their part in the conference, of which 220 were international attendees. Among others, the regular participants of the conference are also delegates from outside European Union countries, mainly from Canada, USA, New Zealand, Australia, Japan and with a large representation of other European states.
